

THE STARJAMMER GROUP

Press Release – Starjammer Systems

Thursday, 21st August, 2014

Starjammer Systems is now trading. After months of hard work, we can confirm that the core elements of Dosstech Limited have been incorporated into the new company, embracing all that was good from the old company, and the elements and skills of the engineers at Starjammer Engineering can bring to the table.

Starjammer Systems is here to service the electronics prototype industry, specialising in prototypes, both physical and electronic for industry and research. Its staff and consultants have nearly twenty years experience in creating and innovating new products for our clients, something they not only take professional pride in; it's something they enjoy doing immensely.

For all enquiries, please contact **enquiries@starjammer-systems.com**, **Charlotte Smith** or **myself** at the Starjammer Group.

Rachel Parham
